

Your Next SD-Branch Provider

1Wire Software Defined Branch (SD-Branch) keeps your business running uninterrupted.

By introducing multiple Internet connections, your business can have access to more bandwidth, reliability and quality assurance for your most valued business applications.

Guest Wifi

With Bonded Bandwidth, offer your customers Free Wifi and continue to use your critical business applications at the same time on the same network.

Internet always available

Save money and time with Same IP Failover. By having Bonded lines, or standby mobile connections such as 3G/LTE/5G, you will always be connected at all times. Same IP Failover ensures that secure sessions to payment gateways, Inventory applications and services such as UBER eats never disconnect, even if one of your Internet lines goes down.

Lower operating costs

Save money and eliminate extra costs on POS LTE subscriptions and expensive networking equipment for managed Wifi. 1Wire will work with you to build the perfect setup for your business needs.

Visit 1wirefiber.com/sd-branch or call 1-801-990-6200 to learn more or place an order with 1Wire, your next SD-Branch provider.
