SERVICE SPOTLIGHT

 Enclave One is a patent pending managed service built on Microsoft 365's Government Community Cloud. It includes a CMMC Level 2 certification with no additional assessment or out of pocket expense required. It is truly turnkey and is the fastest way to CMMC compliance, bar none. Eligibility required.

 Continuous monitoring reduces the overall effort and cost of follow on C3PAO certification assessments by breaking up your reassessment over the 3 year period in order to maintain compliance and ensure confidence in your required annual affirmations.

TRUST THE RIGHT PARTNER

From managed solutions to readiness & advisory services to C3PAO certification assessments, we know CMMC. Our people and technology will support your clients every step of the way on their DOD cyber compliance journey. See why we're the #1 combined CMMC managed service provider & authorized C3PAO.

OUR SERVICES

WE ARE DIFFERENT

We are a CMMC Certified managed service provider

1

Ariento is a CMMC Level 2 certified managed service provider, meaning your clients inherit security controls from us resulting in a cheaper and easier certification assessment.

We are authorized to perform CMMC certification assessments as a C3PAO

2

Ariento is one of ~64 companies authorized by the DOD and CyberAB to perform CMMC assessments and provide certifications. Companies are required to be assessed every 3 years.

We are a Microsoft Government partner

3

Ariento is a Microsoft 365 and Azure Government partner, authorized to resell and perform migrations to Microsoft 365 GCC, GCC-High and Azure Government.
