

AVERTIUM

Microsoft
Solutions Partner

ENTRA ID SERVICES

Microsoft Entra ID (formerly Azure AD) is a powerful IAM service that seamlessly authenticates and authorizes identities across hybrid and multi-cloud environments, insuring the protection of organizational applications, resources, actions, and data from exploitation. However, while eager to innovate and leverage Entra ID's benefits, many companies lack the expertise to implement it securely and ensure it functions optimally for their needs. That's where Avertium comes in - our Entra ID services are designed to help you implement and secure your cloud-based IAM environments within the context of your organization's security strategy:

- Our **Assessment and Roadmap** service analyzes your Microsoft Entra environment to identify vulnerabilities, insecure settings, weak or missing security features, and compliance issues.
- Our **Implementation** service applies Avertium's recommended configurations and/or remediations to enhance security, streamline user management, and establish compliance.

BUSINESS VALUE

- Expertise in both Microsoft ID Entra and cybersecurity to ensure you get robust technology enablement delivered with strategic security and compliance insight.
- Confidence in knowing that experts have assessed, road-mapped, and securely configured Entra ID for building an effective IAM program.
- Expert Entra ID guidance, design, and implementation tailored to your business needs and the IAM capabilities included in your Microsoft licenses.

GOALS, SUCCESS MEASURES, AND INTENDED OUTCOMES

Assessment and Roadmap

1. Provides a clear understanding of where you stand and what is needed to successfully implement Entra ID.
2. Ensures you and your team understand Entra ID's capabilities and how they relate to your organization's overall security posture and compliance requirements.
3. Clearly outlines the next steps for implementation.

Implementation

1. Protects applications and data through developing a hardened and automated IAM platform that notably reduces attack vectors on your organization's cybersecurity landscape.
2. Lays a secure foundation for IAM that strikes a balance between security & the ability to conduct business.
3. Implements policies in a manner that is customized to your business needs.
4. Verifies configuration settings facilitate regulatory compliance requirements.

DIFFERENTIATORS

Assess - Design - Protect Approach

Our comprehensive Assess, Design, Protect approach ensures robust technology enablement delivered with the perspective and experience of a strategic security leader.

Consultative Engagement

Avertium collaborates with your business to understand how you operate and your unique challenges. This consultative approach ensures the application of security and business best practices, guiding you through assessment, design, and implementation with minimal disruptions.

Multi-Tool Experience

Avertium's team has experience with a multitude of IAM solutions, enabling them to compare tools and provide competitive information. This allows for mapping of required or preferred capabilities to Entra ID.

Technical Background Applied to Cybersecurity

Avertium's assessors have transitioned from systems engineering to cybersecurity, enabling them to articulate and address the challenges of implementing a strong IAM program. This expertise empowers you to balance security without disrupting business operations, breaking workflows, or halting revenue streams.

DELIVERABLES

Assessment and Roadmap

1. Actionable Assessment Report with Detailed Remediation Recommendations
2. Roadmap to Implementation

Implementation

1. Work Breakdown Structure (WBS)
2. Project Documentation
3. Properly configured Entra ID Platform

ABOUT AVERTIUM

[Avertium](#) is a cyber fusion and MXDR leader, delivering comprehensive security and compliance services to mid-market and enterprise customers. Our unique "Assess, Design, Protect" methodology addresses and improves security strategy, reduces attack surface risk, strengthens compliance, and provides continuous threat protection. Avertium maximizes customer security investments and enables customers to focus on growth, innovation, and business outcomes, while assuring that their security infrastructure is resilient and adaptive to evolving threats. That's why customers trust Avertium to deliver better security, improved compliance, and greater ROI.
