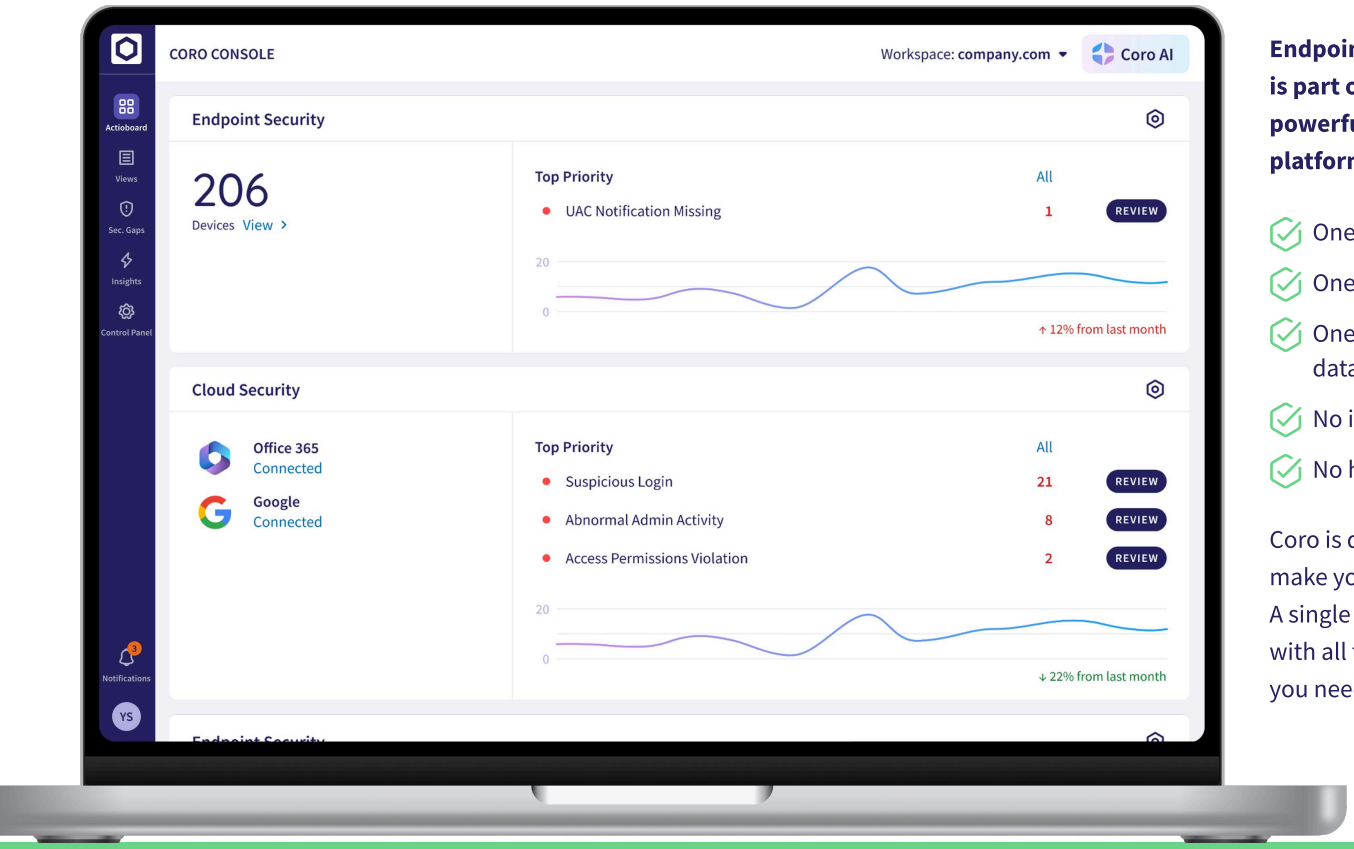
Endpoint Security

Cybersecurity Made Easy

Safeguard endpoint devices and protect your business with the Coro Endpoint Security module. It automatically identifies and logs all devices, scanning for malware, suspicious activity, and human errors. The Endpoint Security detects unusual behavior and neutralizes threats before they can cause harm.

Unified Cybersecurity



Endpoint Security is part of a unified and powerful cybersecurity platform.

- One dashboard
- One endpoint agent
- One AI-driven data engine
- No integration
- No headaches

Coro is designed to make your life easier; A single security platform with all the capabilities you need.

Key Supported Security Incidents

- **Malware on Endpoint**
  Detects malware and initiates automatic remediation
- **Infected Process**
  Identifies malicious processes and neutralizes the threat
- **Firewall Disabled**
  Identifies the disabled firewall and recommends enabling it
- **Gatekeeper Disabled**
  Detects unverified app permissions and alerts to restore security settings
- **Non-Genuine Windows Copy**
  Identifies non-genuine OS and alerts to potential security risks
- **System Integrity Protection Disabled**
  Identifies disabled system protection and alerts to re-enable safeguards
- **Unencrypted Endpoint Drive**
  Identifies unencrypted drives and alerts to enable encryption
- **Forbidden Wi-Fi Connection**
  Detects unauthorized Wi-Fi connections and blocks access
- **Development Mode Enabled**
  Detects active Development mode and flags potential security risks for mitigation
- **Apple Mobile File Integrity Disabled**
  Detects the disabled feature and alerts to restore file integrity
- **Wi-Fi Phishing**
  Identifies malicious Wi-Fi networks and prevents device connection
- **Device Password Missing**
  Detects missing password and prompts to secure the device
- **UAC Notification Missing**
  Detects missing user account control alerts and prompts for restoration
- **VSS Backup Protection**
  Detects unprotected backups and advises securing them against ransomware

Key Features

- **Remote Agent Uninstallation**
  Remotely triggers uninstallation of Windows agents from the Console
- **Device Posture**
  Sets device policies according to device vulnerabilities
- **Quarantine Infected Containers**
  Automatically quarantines the entire container with malicious files
- **Allowlist / Blocklist**
  Creates allowlists and blocklists for files, folders, and processes to reduce tickets triggered by unknown activities
- **Scheduled Malware Scans**
  Schedules daily, weekly, or off-hours malware scans on Windows, macOS, and Linux agents
- **Secured Shadow Backups**
  Regular backup snapshots against ransomware
- **Initial Malware & Ransomware Scan**
  Performs a device scan upon installation
- **USB Lockdown**
  Allows admins to permit specific USB drives by serial number while blocking all others for secure, controlled access
- **Advanced Threat Control**
  Blocks any processes that exhibit suspicious behavior
- **Analytics**
  Dashboards, scheduled reporting for audits and executive summaries, real-time alerts
- **Wi-Fi Phishing Detection**
  Identifies and blocks connections to malicious Wi-Fi networks
- **Multilingual Support**
  Provides additional support for French, Spanish and Italian

Why Coro?

High Threat Detection and Protection Rate
Achieved AAA rating from SE Labs

Easy to Maintain
95% of the workload offloaded from people to machines

Quick Deployment
Simple and quick installation, no hardware required

Fast Learning Curve
Minimal training, simplified onboarding, user-friendly interface

High ROI
No hardware costs, zero maintenance overhead, affordable pricing

High Customer Satisfaction
95% likelihood to recommend - as rated by G2

About Coro

Coro is the easy cybersecurity company. We designed a platform that every lean IT team will master. While other solutions scare people into buying complicated, confusing products, we lead with elegant simplicity. Coro is fast to deploy, easy to use, and designed not to waste your time. Once you install Coro, you'll hardly think about us. That's the point. Coro automatically detects and fixes security problems, so IT teams don't have to spend time investigating or troubleshooting. We're also one of the fastest-growing tech companies in North America, just ask Deloitte.
