

Mobile Device Management

Cybersecurity Made Easy

Coro's Mobile Device Management (MDM) module simplifies the management and security of company-owned and Bring Your Own Device (BYOD) work-related mobile devices. It enables IT teams to enforce app policies, manage apps, and ensure company policy compliance. The module gives visibility into mobile devices, ensuring efficient device management across the organization.

Unified Cybersecurity

Mobile Device Management is part of a unified and powerful cybersecurity platform.

- ✓ One dashboard
- ✓ One endpoint agent
- ✓ One AI-driven data engine
- ✓ No integration
- ✓ No headaches

Coro is designed to make your life easier; A single security platform with all the capabilities you need.

Key Features

-  **iOS and iPadOS Device Enrollment**
Enrolls devices via DEP with Coro as the MDM or through MAID for identity-driven enrollment using managed Apple IDs
-  **Application Policy**
Defines and enforces rules for app use, including install/remove restrictions, blocking in-app purchases, and locking system defaults
-  **Device Labels**
Groups related mobile devices, enabling filtered searches and targeted policy management
-  **Supported Mobile Platforms**
iOS/iPadOS and Android
-  **Remote App Installation**
Installs required apps on employee devices directly from the console
-  **Device Management**
Allows admins to add labels to enrolled devices for better categorization, wipe data remotely for enhanced security, mark devices for disenrollment to remove profiles and policies, and remove devices that are inactive or disenrolled
-  **Expiration Reminders**
Sends emails to admin users warning of the expiration of their installed Apple certificates for APNs and DEP
-  **Lost Mode**
Locks supervised devices, shows custom contact info, and tracks location when powered on
-  **Policy Management**
Enables admins to create policies based on allowed apps for work profiles (iOS supervised/Android) and compliant apps with compliance reporting for installed apps (iOS BYOD)
-  **Rich Application Search**
Allows admins to add apps to a device policy from the Coro console based on the app name
-  **Multilingual Support**
Provides support for French, Spanish and Italian on mobile apps

Why Coro?

-  **High Threat Detection and Protection Rate**
Achieved AAA rating from SE Labs
-  **Easy to Maintain**
95% of the workload offloaded from people to machines
-  **Quick Deployment**
Simple and quick installation, no hardware required
-  **Fast Learning Curve**
Minimal training, simplified onboarding, user-friendly interface
-  **High ROI**
No hardware costs, zero maintenance overhead, affordable pricing
-  **High Customer Satisfaction**
95% likelihood to recommend - as rated by G2

Thousands of Customers in **Automotive, Education, Energy, Financial** and more.

About Coro

Coro is the easy cybersecurity company. We designed a platform that every lean IT team will master. While other solutions scare people into buying complicated, confusing products, we lead with elegant simplicity. Coro is fast to deploy, easy to use, and designed not to waste your time. Once you install Coro, you'll hardly think about us. That's the point. Coro automatically detects and fixes security problems, so IT teams don't have to spend time investigating or troubleshooting. We're also one of the fastest-growing tech companies in North America, just ask Deloitte.
