

DSM Private Cloud

All the benefits of the Cloud, with total control.

DSM's Private Cloud gives you all the computing power and storage capacity of the cloud, as well as the security of using your own private computing and virtualization layer. Your enterprise-quality IT system will be supported and maintained in our secure, highly redundant datacenters. We meet almost any compliance requirement, and we'll help ensure your uptime.

Why DSM?

- Our security systems are trusted by even the most secure state agencies.
- The fullest level of control you can achieve in the cloud.
- Achieve high-uptime SLAs.
- Easily meet the highest compliance standards.

Highly secure

- Only your authorized employees and DSM staff can touch your systems. Data can even be encrypted for an additional layer of security.
- Our Private Cloud meets CJIS, HIPAA, PCI, SOC2, and SSAE16 standards.

Simplify your budget

Reduce operating costs. Eliminate unforeseen IT expenses, as well as capital expenditures.

Private government cloud

DSM also offers My Florida Cloud, a private cloud for Florida government agencies.

- DSM is committed to working with all States to provide similar private cloud instance for their agencies.
- Our certified technicians are available 24x7x365.

Minimize risks

DSM guarantees **99.999% uptime**.
