

SERVICES

Welcome to the EffortlessSuite™ of cloud-based products, designed to work together and exceed your technology needs, effortlessly. We worry about technology and support so that you don't have to. Make the move to our Effortless-as-a-Service products today.

DESKTOP

Full functionality of a desktop, but with all of the great features you have come to want in cloud products, including ease-of-use, reliability, and complete support.

SUPPORT

We have built the best products and support through 15+ years of experience in providing virtualization and cloud services to multiple verticals.

COMPLIANCE

We are fully SSAE-16 compliant and happy to work directly with your business to meet the necessary compliance requirements of your industry.

SECURITY

Our next-gen technology with proactive monitoring immediately detects known and emerging viruses. We're the cybersecurity protection that you're missing.

RECOVERY

Backup, replicate, and protect your data in the cloud. Developed as an enterprise-class solution, EffortlessRecovery™ exceeds your business continuity needs.

2FA

A complete trusted access solution includes endpoint visibility, adaptive authentication & policy enforcement, and remote access & single sign-on to protect every application.

SERVERS

We work with your business, not the other way around. We can build all or just some of your servers and infrastructure in the EffortlessCloud™.

SDWAN

Built on the Cisco Viptella and Meraki platforms, Effortless can provide a fully supported, monitored and managed enterprise class SD-WAN solution.

WIFI

We ensure reliable, consistent, secure, and fast connections to your network and the Internet.

PRO SERVICES

We offer solutions for support desk, managing and monitoring of networks and infrastructure design, implementation, and support.

MAIL

The Effortlessmail™ platform comes in a hosted or dedicated model that allows you to sync your emails, contacts, calendars, tasks, and shared folders across your devices.

ZERO CLIENT

We offer our own Effortless ZeroClient™ for those clients that want to transition away from their current computers or for those clients that would like to purchase zero clients from the onset.

ENCRYPT

Effortless Encrypt can help you avoid fines, penalties, and the negative publicity that comes with violation of regulations such as HIPAA, HITECH, GLBA, and State Data Security Laws.

FIREWALL

Effortless creates a multi-layered approach from the start. Preparation, deployment, and management of your firewall.

RMM

Effortless RMM remote monitoring can assist in managing your organizations devices and networks, including laptops, mobile devices and workstations.

MS OFFICE O365

The design of our system allows us to keep costs down. We spend money on hardware, technology, and maintenance, so you don't have to worry about it.

WHAT DIFFERENTIATES EFFORTLESS FROM OTHER BUSINESSES?

With Effortless, you receive our 'white glove' support team that provides the highest level of care at any time to our clients. We enable our clients to leverage the benefits of enterprise-level technology and support with a full suite of solutions. We set up each infrastructure correctly from the start, and as a result, our clients experience fewer issues. Our support engineers and staff become your care-focused service team.

WHAT TYPE OF BUSINESSES DOES EFFORTLESS WORK WITH?

We work with many different businesses from various industries, but our primary focus is on small and mid-market companies that:

- Have a desire for outstanding support and advanced cloud solutions that enable the business to grow and succeed
- Are facing regulatory obligation and need a "compliance first" partner
- Operate in Healthcare, Construction, Retail, Restaurants, Education, Financial, Manufacturing, Hospitality, Real Estate, Insurance, Legal, etc. and are hoping to move their applications, email, and systems to the cloud
- Require compliance through HIPAA, HITECH, PCI, SSAE 16 & FFIEC
- Operate one or more locations or conduct business on-the-go and are seeking stability and mobility advancements with desktop-as-a-service
- Seek integration with VoIP
- Look to reduce costs and increase data privacy, employee accountability, and productivity
- Are searching for MSP Professional Services

WHY WOULD I NEED EFFORTLESS?

Do you have upcoming IT projects that you would need alternative, money-saving solutions for?

- What are some areas where you would like to reduce expenses? CapEx? Labor Costs? You can cut these costs with an all-in-one cloud solutions provider.
- What security and regulatory requirements do you have? Are they being met?
- Are you 100% confident in your disaster recovery and business continuity plans?
- When is the last time you reviewed your security policies, changed your WiFi passwords, updated your network, or performed network hygiene that keeps your company at the top of its game?

Effortless handles all of this for you while saving you money. You get the best of both worlds.

WHO ARE SOME OF EFFORTLESS' CLIENTS?
