

Company Overview

Navigating What's Next

Lunavi is your strategic partner, illuminating the technology solutions that lead to impactful business outcomes for your organization. We are among a select category of firms capable of building modern applications and providing infrastructure services backed by 24/7 support.

Founded over 15 years ago, Lunavi has evolved into a service-oriented, value-driven provider of IT consulting and managed services. **We partner with our customers to create the next generation of technology solutions and empower your teams to deliver those solutions in a better way.**

Digital Transformation, Delivered

Lunavi advances your digital transformation goals by designing and implementing the right solutions, team structure, and delivery process for success. Our offerings range from infrastructure and managed services to application innovation and data analytics. Successful engagements have created:

- **Market differentiation** and **revenue generation** through technology innovation
- **Cost savings** from operational efficiency, consolidation, or modernization
- **Minimized risk** through governance, security, compliance, and visibility
- **Faster time-to-market** and the ability to pivot quickly to business demands

Our Approach

Through years of experience delivering diverse solutions, we have developed a unique approach rooted in Agile methodologies. This delivery guidance results in:

- Knowledge sharing and self-sufficiency
- A high level of visibility and reporting to build shared accountability
- Transformation of not only your technology, but the way you work

Microsoft Partner
Azure Expert MSP

“Lunavi doesn't only come in and perform the work, but they help educate...It feels like they're not a resource, they're an extension of my organization. They're part of my team.

- SCOTT ZULPO,
CTO OF BCU
