

Connected Fleet as a Service

Compliance and driver safety are critical, but juggling separate platforms, contracts, and billing systems for GPS tracking, ELDs (Electronic Logging Devices), smart dash cams, and vehicle diagnostics can drain time and resources. Streamline your operations with a fully managed fleet solution that includes carrier agnostic connectivity, and complete lifecycle support, all in one simplified package.

The All-In-One Secure Fleet & Mobility Solution

Future-proof your fleet. Realize improved safety and cost savings with leading AI-powered tech, reliable connectivity, total visibility, and end-to-end support.

AI-POWERED TECH

Advance your business with safety-first solutions featuring AI-powered cameras, devices, and passive coaching.

ALWAYS ON CONNECTIVITY

MetTel SingleSIM ensures multi-carrier connectivity of your connected devices so you can transmit data in real time with no interruptions

TOTAL VISIBILITY

MetFleet provides complete visibility into your environment removing the complexity of multiple vendor portals and bills.

COMPLETE END-TO-END MANAGEMENT

From setup to support, MetTel simplifies it all - offering the only fleet solution that unifies your enterprise mobility needs.

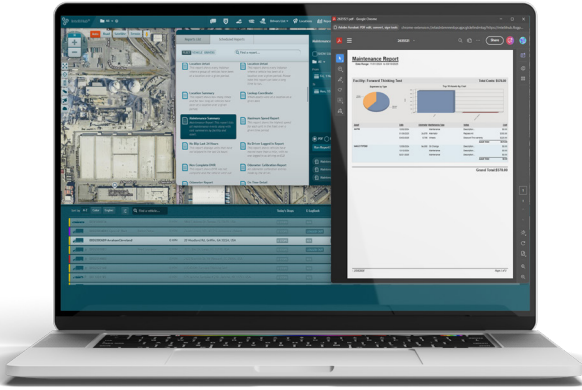

MetTel Simplifies Fleet Management

- In-cabin video with AI & driver coaching
- Field-ready devices with full lifecycle support
- Route planning & dispatch
- Driver & management apps
- Seamless integration with ELS (Electronic Logging Systems), fuel cards, and IoT accessories
- Professional installation & ongoing support
- One platform

MetFleet AI: Real-Time Insights & Reports

- Unified portal to manage devices, vehicles, and assets from a single dashboard.
- Fleet Cameras with AI for driver safety complete with coaching, incident review, and driver behavior analysis.
- Track field equipment, trailers, and tools—powered or unpowered—anywhere they go.
- Real-time GPS tracking and dispatch tools for fleet operations.

Secure, Uninterrupted Connectivity for Data-Only Devices

Powered by MetTel SingleSIM: Always-on connectivity that isn't restricted by device, carrier, or location. In today's mobile work environment, data reigns supreme and rapid, secure data transmission can make all the difference in achieving your goals.
