 hello@meter.com

Reliable cell service deployed as easily as Wi-Fi

Get coverage in your space in a matter of weeks — all for one monthly rate.

20x 

Faster Day 0 and Day 1
than leading DAS
solutions

5x 

Cheaper install,
management, and
support than leading
DAS solutions

0:00 

Zero coordination and
project management
required by customers

Cellular is full coverage and seamless

Based on neutral host CBRS, your users get the same experience as connecting directly to a local cell tower for major carriers. No separate app, no carrier profiles, and no captive portal required.

Reliable coverage

Seamless roaming

No additional configuration

All phones manufactured since 2019
support CBRS and Meter Cellular

Deployment and maintenance

We provide and install the hardware, deploy the cellular access points, and take care of ongoing maintenance.

Cellular support

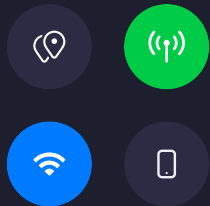

Service troubleshooting, expert support, and 24/7 operations throughout all your spaces.

Cellular reliability

Redundant design and cloud-based configuration for all devices.

Cellular monitoring

Proactive alerting and continuous monitoring for hardware, software, and service management.

Get cellular coverage at Wi-Fi cost

No more thick coaxial cables or massive rooms of equipment. With Meter, all it takes is a single ethernet cable to install Cellular Access Points and instantly extend coverage through our standard network stack.

Scale and future-proof your spaces

Whether you need coverage for a 1M sqft warehouse or thousands of retail locations, Cellular scales with you.

Meter Cellular offers a hybrid solution that combines the best of all cellular solutions on the market today.

	Active DAS	Passive DAS	Meter Cellular
 Installation	New coaxial wiring + dedicated equipment room with cooling	New coaxial wiring + roof access	 Uses CAT6 wiring
 Timeline	12+ months	2-6 months	 6-8 weeks
 Coordination	Extremely high	Medium	 None
 Capacity	High	Dependent on local cell tower	 Medium/High
 Backhaul	Dedicated fiber from cell carriers	None	 Existing ISP
 Price	\$250,000+ for 50,000 Sqft + maintenance fees	\$50,000+ for 50,000 Sqft + maintenance fees	 Low monthly cost

Installation process

Meter has a world-class deployment team with unmatched project management and technical expertise.
