Backup-as-a-Service (BaaS)

Seamless, Reliable & Cost Effective

Your business depends on your data. Our cloud-based Backup-as-a-Service program delivers seamless, reliable and cost-effective backup and restore capabilities for protecting your data. Opti9 Backup-as-a-Service is a fully managed backup solution that makes it easy to automate and centralize your backups to our preferred partner, AWS. Backups are stored in the cloud utilizing object storage, and this can assist you in taking advantage of cost optimization via intelligent tiering strategies.

The Opti9 BaaS offering provides a fully managed, policy-based backup solution focused on security and compliance, simplifying your backup management. The end goal is ease of use, controllable costs, and the ability to meet your RTO and RPO objectives.

Account Configuration & Mgmt.

We will fully configure your AWS account, including:

- ✓ Identity Access Management configuration (IAM)
- ✓ VPC / Subnets configuration
- ✓ AWS CIS Foundations Benchmark

Backup storage configuration

- ✓ Amazon S3, access policy, life-cycle, encryption
- ✓ Intelligent tiering to more cost-effective storage tiers in AWS

Enterprise support

Backup Cost Savings

- ✓ Pay only for what you use
- ✓ Backups are stored in low-cost object storage
- ✓ Quarterly checks to ensure that your AWS costs are optimized

About Opti9

Opti9 is a hybrid cloud solutions provider with offices in Garden City, NY, Omaha, NE, Overland Park, KS, and St. Louis, MO, and data centers in North America, Europe and the APAC region. The company is an AWS Advanced Consulting Partner and Platinum Veeam® Cloud & Service Provider (VCSP) partner, along with several other key partnerships and certifications. Opti9 specializes in managed cloud services, application development and modernization, backup and disaster recovery, security, and compliance. With its business-first focus, Opti9 blends experience with innovation and new solutions to deliver on its "Right Workload, Right Cloud, Right Time" approach.
