

Security & Network Management Solutions

Inmarsat
Fleet Xpress

Fleet Xpress is the benchmark in fully-managed VSAT services, offering continuous connectivity, guaranteed performance, and controlled costs, along with the business applications modern vessels need. With guaranteed global bandwidth, ship owners and operators can enhance business intelligence, boost efficiency and performance, improve crew welfare, and manage cyber-security more effectively.

Fleet Xpress connects all types of vessels, including merchant, cargo, passenger, commercial fishing, offshore support, and luxury yachts. **When you choose Fleet Xpress from Pulsar, you receive world-class network design, installation, management, and ongoing support.**
