

Rackspace Service Blocks for Managed Public Cloud

Flexible services and custom-built solutions for unique cloud needs.

No two cloud journeys are the same. Organizations often have varying requirements across teams, business units and applications, with multi-cloud strategies only adding to this complexity. Cloud management needs also change and shift as businesses navigate cloud adoption.

Rackspace Service Blocks™ for Managed Public Cloud meet you exactly where you are on your cloud journey, allowing you to build customized cloud solutions that match your specific needs. Service blocks provide the flexibility to change or grow cloud services as your cloud needs change, providing maximum value by delivering only the services and support you need the most.

Why Rackspace for Managed Public Cloud Service Blocks?

Rackspace is a next-generation Managed Service Provider, helping customers navigate their journey to the cloud and accelerate their digital transformation. An army of certified Rackspace experts and industry-recognized cloud services deliver expertise, optimization and unmatched support for the entire cloud lifecycle across the world's leading hyper-scale cloud platforms, with service blocks available on these platforms:

- AWS
- Microsoft® Azure®
- Google Cloud Platform™

Key Benefits

Customization: Designed to meet specific cloud needs such as migration, deployment, operational support, automation and cost governance. Easily select and combine service blocks to build customized solutions to meet varying needs across your organization.

Flexibility: As your cloud needs grow or shift over time, Rackspace cloud specialists will work with you to add, change and customize service blocks to meet your changing requirements. Additionally, as Rackspace cloud partners continue to innovate, Rackspace Service Blocks evolve to keep you on the cutting edge of cloud technology.

Maximized Value: Rackspace delivers the specific cloud services and support you need, helping reduce unnecessary cloud management costs by focusing exclusively on the outcomes that are most critical to your business.

Service Blocks

Rackspace Service Blocks include these options:

Platform Essentials: Easily manage your accounts and user permissions in a consolidated control panel. Extend AWS, Microsoft Azure and Google Cloud support with 24x7x365 ticketed access to Rackspace cloud experts. Reduce costs, improve reliability and add security and redundancy across your public cloud infrastructure with industry-leading tooling and automated analytics reporting.
