

Business internet wherever your customers need it

Wireless Business Internet

Get high-performance and secure connectivity

Connect your customers, without the hassle of digging and lengthy process of installation. Your customers rely on cloud-based productivity and supporting a remote workforce, at home and in the field.

Wireless Business Internet offers a fast and secure internet experience. From the middle of a construction site to the edge of a forest, experience connectivity where it's really needed. Business grade internet is a must, no matter where your customers' business happens.

Key benefits

Connectivity designed for business

High speed internet is delivered to your customers' location, with unlimited usage and easy installation.

Static IP address

A static IP address helps with stability, making it easier to connect remote workers via VPN and use VoIP for voice and video communications.

Block malicious traffic

Reduce the risk of threats with automatic security updates.

24/7 Support

A professionally installed network with 24/7 tech support from your dedicated Business Specialist.

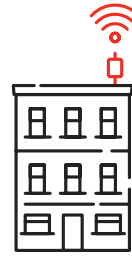

Rogers Wireless Business Internet provides fast, simple and secure connectivity.

Office trailers

Remote business locations

Retail stores

Wireless Business Internet

- › Unlimited[†] usage with 450 GB at high-speed (reduced speeds thereafter)
- › Download speeds up to 25 Mbps
- › Upload speeds up to 5 Mbps
- › Access to 24/7 technical support

About Rogers Wholesale Solutions

The Rogers network spans over 80,000 km of fibre backbone across the country and into key U.S. and global locations. This includes 12 data centres nationwide, including four Uptime Institute-certified Tier III facilities. Providing reliable uptime, powerful performance, and scalable connectivity with speeds up to 100 Gbps.¹

Rogers is one of Canada's largest communications providers, and the first Canadian carrier to launch 5G. We continue to make significant investments in our communities, team members and network to connect you and your customers to what matters most—and we are growing every day.

Choose Rogers for first-class, end-to-end support for all your clients' needs.

rogers.com/wholesale

¹ Assuming optimal network, equipment and customer device conditions. See Rogers Business Acceptable Use Policy (see rogers.com/terms). Offers available for a limited time where technology/access permits to commercial addresses in Alberta, British Columbia, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Saskatchewan, Quebec. Subject to change without notice. Rogers wireless business Internet is delivered over the Rogers wireless network. Eligibility is limited by region and address and will be confirmed onsite by a technician only if the address is deemed serviceable. Services offered and usage subject to the Rogers Small Business Terms of Service or the Enterprise Customer Agreement General Terms and Conditions, as applicable (see [HYPERLINK "http://www.rogers.com/terms" rogers.com/terms](https://www.rogers.com/terms)) and the LTE Fixed Wireless Access Product Schedule. [†]Unlimited package includes a high-speed data allotment. Once exceeded, download and upload speeds will be reduced until the end of the bill cycle. Online activities will continue to function at reduced speeds; however, the quality of higher bandwidth activities such as video conferencing and streaming will likely be reduced, especially when multiple users are connected to the network. Usage further subject to Rogers Business Internet usage policy for these packages (see rogers.com/terms). Actual speeds experienced will vary based on various factors, including network capacity, customer's equipment, signal strength, topography and environmental conditions. ©2022 Rogers Communications Inc.
