

Speakap Feature Overview

The Employee Experience Platform Your Deskless Workforce Actually Wants to Use

Built for deskless teams, Speakap is the mobile-first platform that is designed to consolidate communication, engagement, recognition, learning & development, training and everything else into one easy-to-use platform.

News & Updates

- Scheduled publishing
- Targeting based on role, team, or location
- Read Confirmations
- Social-media-style updates

Chat (Private & Group)

- Fully secure, compliant messaging
- No need for personal phone numbers or emails
- Instantly separate business from personal

Employee Directory

- Search by name, role, location
- HRIS sync support (name, title, department)
- Click-to-call for stored business numbers

Knowledge Base

- Structured, searchable info hub
- Access control by user group
- Contributor roles for easy management

Task Management

- Assign to individuals or groups
- Push reminders & deadline alerts
- Track status and completions

Journeys (Onboarding & Beyond)

- Step-by-step learning modules
- Embed video, quiz with AI, and reinforce knowledge
- Target content by group, role, or location

Analytics & Insights

- Daily/monthly active users
- Engagement per post
- Popular times & formats
- Performance across teams or locations

Security & Administration

- End-to-End Encryption
- Role-Based Access & Admin Controls
- Custom Terms & Privacy Policies

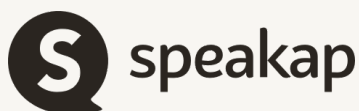

Customization & Branding

- Custom app name, logo, icons
- Brand colors, images, and fonts
- Separate themes for business units
