

Tangoe One

Tangoe One is a comprehensive platform to simplify, manage and optimize expenses and inventory across fixed, mobile and cloud technologies. Powered by artificial intelligence and machine learning, the Tangoe One platform delivers positive business outcomes to enterprises of all sizes. The benefit of having a single pane of glass view into all technology spend, real-time analytics and a holistic inventory provides the visibility and control needed to run your business.

What does Tangoe One do for you?

Save time and money: Our software does the work for you. It simplifies and manages technology invoices and inventory wherever you are. Get actionable insights with comprehensive analytics and reporting across the enterprise, a branch office or individual. AI and ML powered data allows you to act on and improve efficiency. Eliminate manual processes with nearly 400 carrier integrations in our ecosystem. Get real-time insights, automated processes so you can focus on innovating for your business.

SIMPLIFY

Simplify, streamline and centralize processes to reduce manual tasks and get a clear picture of your IT expenses and assets so that you only pay for what you use, need and agreed to, on time, every time. Leverage a broad range of integrations that seamlessly interact with your business systems.

SECURE

Secure your tech stack with strict governance protocols that strengthens compliance and security to eliminate overspending, protect your business and intellectual properties. Guidelines are based on industry, geographies, business initiatives, frameworks, and regulations.

MANAGE

Manage the full lifecycle of your IT assets and expenses confidently with error-proof automated processes, and AI/ML powered data that delivers comprehensive reporting and analytics for actionable insights and improved efficiency.

OPTIMIZE

Optimize your investments with a solution and services that almost always pays for itself. Deliver bottom line cost savings back to your business so that you can properly allocate spend, scale or right-size, and foster innovation and growth.

End-to-end enterprise IT asset and expense management that delivers simplicity, savings and user satisfaction.

Telecom

Tangoe's leading TEM solution is trusted by businesses of all sizes to simplify, manage and optimize inventory and spend across fixed telecom services.

Mobile

Enterprises turn to Tangoe, a visionary in Gartner's MMS Magic Quadrant, to wrangle the complexity of mobile fleet lifecycle management.

Cloud

The only complete IaaS, SaaS, UCaaS and Private Cloud expense and optimization tool to maximize the efficiency and effectiveness of your cloud solutions.

Reporting & Analytics

Detailed reporting and analytics that offers both granular visibility of day-to-day activities as well as at the executive-level for a holistic 360 degree overview of your Telecom, Mobile and Cloud spend, inventory, services and more in one single, central location to help drive strategic decisions.

Consulting

Gain strategic insights, receive full historical expense audits, find the right services and devices, negotiate the best global contracts and reduce IT operating costs with Tangoe Advisory Services.
