

CJIS Compliance

CJIS Compliant Cloud, Cybersecurity, and Managed IT Services

Thrive offers integrated, **CJIS compliant Cloud solutions** for Florida and Alabama-based agencies, and consulting for organizations searching for an experienced guide through the complex Cloud compliance process. Thrive provides simplified procurement of our services using the Federal GSA Contract and Florida Cyber Contract, among others.

Thrive delivers high-touch outsourced IT services that provide predictable costs year to year, and enables clients to increase efficiencies through standardization, scalability, and automation. 100+ CJIS Compliant Thrive team members in all IT fields partner with its government clients to become an extension of their team. These specialists can help offload the mundane, but necessary, infrastructure related tasks to allow them to focus on supporting their end-users and business apps.

Thrive provides scalable and secure Cloud-based solutions, and flexible, customizable Cloud migration options for government agencies of all sizes and requirements. Customization allows agencies new to the Cloud to secure CJIS compliance while minimizing the financial and operational risks with a complete, one-time Cloud migration. Scalability enables clients to easily adjust as needs evolve.

In addition, Thrive specialists have experienced the common hurdles faced by those required to comply with CJIS, and have designed a streamlined program that significantly reduces the workload and time required to complete the CJIS Cloud solution approval process. This enables Cloud projects to get underway faster while remaining in compliance.

As a trusted leader in cybersecurity, Thrive delivers proactive, fully managed security solutions designed to protect state agencies from evolving cyber threats. With Thrive's expertise and advanced threat detection, agencies can enhance their cybersecurity posture while meeting compliance requirements. Thrive's continuous monitoring and reporting gives peace of mind, helping to safeguard sensitive criminal justice information (CJI) while maintaining operational integrity.

Thrive is CJIS Compliant

Florida Highway Patrol (FHP) is Thrive's Florida CJIS Lead Agency Sponsor and Thrive is an approved CJIS Cloud vendor in Alabama through the Alabama Law Enforcement Agency (ALEA).

This enables law enforcement and criminal justice management entities operating in these states to implement Cloud-based solutions and comply with the FBI's CJIS Security Policy.
