

SOLUTION BRIEF

Data Center & Colocation Services

Scale and Transform IT Infrastructure

It's time to find a new data center. Secure, connected data center and colocation solutions at the edge of the internet await you, customized to meet your current needs and future goals.

Your Enterprise Data Centers Are Ready

Business requires secure, resilient, and agile IT infrastructure. But it's expensive to build and staff a data center facility, so most IT environments are moving off-premises.

You must keep up with business growth and new technologies, while minimizing risk and costs. Seamless experiences across private, multitenant, public, and hybrid clouds require expertise that is hard to find..

Get the Data Center Resources You Need, Anytime

Small businesses to Fortune 500 enterprises choose TierPoint data centers for enterprise-class reliability, performance, and security, without the risk and overhead of an on-premises data center.

With TierPoint, you can:

- Meet your resiliency objectives
- Maximize physical and cyber security
- Scale IT infrastructure as your business grows
- Get help from compliance experts
- Access the best network connectivity
- Outsource installation and maintenance tasks
- Optimize with geographically diverse data centers
- Blend colocation, cloud, and managed services
- Business continuity office space

Maximize Availability and Scale

With one of the largest and most geographically diversified footprints in the U.S., TierPoint operates 40 data centers across the nation, providing redundancy and industry-leading service levels (SLAs) of 100% uptime.

Improve Security and Compliance

Security is our top priority. We offer comprehensive physical security including 24x7 on-site personnel, biometric access screening, and surveillance. Our data centers are audited for compliance and are SOC 1 Type II, SOC 2 Type II, SOC 2 + HITRUST, GLBA, HIPAA, PCI-DSS, NIST SP 800-53, ISO 27001, ITAR and EU-US Privacy Shield registered.

Enhance Performance and Connectivity

Ensure peak performance and uninterrupted uptime by seamlessly integrating networks with diverse carriers and cloud providers across our 40 data centers, bringing the internet closer to you with exceptional performance and reliability. Our carrier-neutral facilities provide high-bandwidth, low-latency connectivity, meeting your business needs efficiently.

Optimize with Standard and High-Density Colocation

Avoid the expense and hassle of managing your own data center by leveraging TierPoint's purpose-built, secure, modern facilities. Unlock unparalleled performance and resource efficiency for your traditional and GPU-intensive workloads with our standard and high-density colocation offerings. Our customizable cabinets, cages, and suites, paired with advanced cooling options for high-performance computing needs, ensure maximum expansion potential within your footprint, giving your business a competitive edge.
